

BUILDING INFORMATION MODELLING

Investment highlights	<ul style="list-style-type: none"> ✓ Productivity in the Mongolian construction sector will increase significantly ✓ Improved quality and safety of the construction industry ✓ Improved cooperation between the parties involved in the construction projects ✓ Enabling the opportunity for construction industry professionals to work on international stage
Company overview	<ul style="list-style-type: none"> ✓ The NGO “BuildingSmart Mongolia” is founded by Mongolian architects and engineers, who have primary purpose of introducing the “BIM” to Mongolia. As of today, we have establishrelationships with NGOs and government organizations, which are in charge of introducing BIM in their countries such as BCA Singapore, BuildingSmart South Korea, BRI Japan, BuildingSmart Norway, BuildingSmart Sweden, BIM task group of the United Kingdom and with some of them have met in person. Our NGOs main scope is to introduce and develop the BIM in Mongolia.
Sector and industry overview	<ul style="list-style-type: none"> ✓ Rapid development of the Mongolian construction of a sector is requires us to introduce more advanced technology and know-how. While, Mongolian architects use CAD (computer aided designing) technology, in many BIM introduced countries used much more advanced and efficient desinging system and gaining the advantages and benefits of this technology.
Project introduction	<ul style="list-style-type: none"> ✓ The main purpose of the project is to develop a mid-term program to introduce BIM in Mongolia, as well as to implement the program. For reaching this goal, we should exchange experiences with related organizations of the BIM-developed countries, build up the human resources and awake awareness of industry professionals. ✓ Developing this program we will become comprehensive document for major reforms in the construction sector, including necessary laws changes, plan to prepare human resources, the way to overcome the difficulties for facing parties and necessary infrastructure.
Financial snapshot	<ul style="list-style-type: none"> ✓ This project has 3 main stages, such as "Developing the program", "Preparation" and "The implementation of the program". In the early stages we preliminary estimate of 1 billion MNT, which includes expenses necessary for the preparing of specialists, training, workshops, baseline surveys and consulting services. The budget of the preparation and implementation phase will be ready after developing the program.
Project management	<ul style="list-style-type: none"> ✓ The BuildingSmart NGO is planning to implement this project with Ministry of Construction and Urban Development, National Research Institute for Construction techniques and technology and under the consulting of BIM-introduced countries.
